

Pallet Freezer Spacers

LENGTH x WIDTH: 1150 x 1150mm

SPACER HEIGHT: 35mm

MATERIAL: HDPE Black

UniPak Freezer Spacers are designed to allow maximum air circulation between layers dividing product requiring freezing or thawing. This allows faster and more economical freeze time and freeing up blast freezer space for 'next load' utilisation.

100% reusable, washable and recyclable, *UniPak Freezer Spacers* can be nested up to 500 pieces in one pallet space. The tough durable design is manufactured from HDPE materials and is suitable for use in a high temperature variance environment.

FEATURES

- Load capacity: 1,100 KG (static)
- For temperature applications involving rapid freezing or thawing of product
- For use between -45°C and +45°C
- Designed to maximise air circulation around carton layers and speed process
- Easy cleaning and sanitisation
- Nestable up to 500 pieces in one pallet space
- 100% reusable and recyclable
- Washable for continued use and elimination of bacteria
- Nett Weight: 1.8 KG
