

# ECO-NET BALE NET WRAP

100% Recycled – For Silage Bales Only  
Environmentally Responsible Net Wrap

## UniPak is proud to present **Eco-Net Bale Net**.

UniPak **Eco-Net** is the world's first commercialised bale net made 100% from recycled HDPE resins.

This environmentally-friendly net wrap is proof that recycling is possible with effort and the good social conscience that exists at UniPak, while also delivering a saving for our trade partners.

This net is specially designed for **silage bales only** and requires a silage film overwrapping. We guarantee all standards - length, high tensile strength and offers a universal fit to all balers. The entire packaging of **Eco-Net** - the material itself and the core - is made of recycled materials.

- KEY FEATURES:**
- Available in 1.23m and 1.3m wide with 75m end warning system
  - Guaranteed 4000 m length and universal baler compatibility
  - **Silage use only / no UV**
